EXPERIENCE

Full Stack Software Engineer   Oct. 2021 - Present
Allocations | Remote

Deliver high quality features in a timely manner across the entire development stack. I utilize Next.JS to create beautiful frontend components, Node.js and MongoDB to create backend APIs and vital infrastructure, AWS to create micro services, and EKS/Kubernetes for Devops. I balance various workflows in a fast paced and ever changing environment.

Key Accomplishments:
- Created an "API Common" package that reduced duplicate code across all of our applications.
- Successfully transitioned our team's deployment processes from Heroku to a custom VPC based deployment I created utilizing EKS and Kubernetes, increasing ease of deployment and security across our entire application.
- Created many frontend components and pages across our application that precisely reflected mocks, increasing user satisfaction and experience.

Freelance Web Developer   May 2020 - Oct. 2021
Self Employed | Remote

As a freelance web developer, I aimed to connect personally with each client. Through in depth planning, regular meetings, and technical research I was able to implement a website that would suit my client's needs.

Key Accomplishments:
- Created a Podcast Consultant website with a mobile friendly design.
- Created a Podcast website that included an online shop.

Automotive Sales   Aug. 2019 - Dec. 2020
Haselwood Autogroup | Silverdale, WA

- Provided a remarkable car buying experience for every customer.
- I uplifted myself and my team through stellar and consistent performance.
- I thrived in a team oriented learning environment, regularly workshopping sales with management and coworkers.

EDUCATION

Alchemy Code Lab | Certification for Full Stack Javascript   Dec. 2020 - June. 2021
- 800+ Hours of learning.
- 3 team projects brought from conception to completion in a remote environment.
